

# Update on Expulsions & Deportations

## Expulsions

Under a CDC order the border is closed to asylum seekers and they are quickly expelled to Mexico or to their home country. This order is still in place under the Biden Administration.

400,000+ asylum seekers have been expelled so far.

Expulsions are illegal — they violate the right to seek asylum and protections for unaccompanied children.

## Deportations

A Texas judge blocked the Biden Administration's temporary halt on deportations until there is a new court decision. In the meantime, the U.S. is continuing deportations.

Migrants are being flown back from the border AND detention centers to unstable and dangerous situations in their home countries.
