

# Asylum Seekers at our Border in Times of COVID-19

*What the Trump Administration Needs to Stop Doing and What it Should Be Doing*

## STOP...

**Deportations to Latin America and the Caribbean.**

**Expulsions of asylum seekers.**

**Locking up immigrants in jails without access to medical attention.**

**Militarizing the border.**

**Pressuring governments to restrict the movement of refugees.**

## INSTEAD...

**Ensure the health and safety of all our communities.**

**Accept & process all asylum seekers.**

**Allow asylum seekers to enter and stay with their families or organizations instead of waiting in Mexico.**

**Support humanitarian and medical assistance for the shelters and organizations working along the border.**
